

Cybersecurity and Business Resiliency

Friday, July 28, 2017, 11:30 a.m. to 12:30 p.m.

Enjoy lunch in our office and a discussion with our own Darius Davenport and Luke Downing, President of Mode5. Cybersecurity is not just an IT issue; it's a business resiliency issue with legal implications. Whether your business is in health care, finance, government contracting, construction, maritime, or other fields, your employees and customers count on you to be secure.
