Is your business using autonomous or unmanned systems? Whether aerial drones, autonomous vehicles or unmanned ships and subs, your business wants to maximize the opportunity to produce revenue from the advantages of these cutting-edge technologies. But the seemingly endless possibilities for using these systems also present new legal complexities. The unmanned and autonomous systems team at CWM can help entrepreneurs, insurers, manufacturers, service providers, pilots and others stay ahead of the rapidly changing legal, risk and regulatory climate to excel in business.
