

Construction Law Group

When disputes arise, we handle negotiation, mediation, arbitration, and litigation in state and federal courts, as well as claim and dispute processes on public projects. Our attorneys are experienced with design defects, construction defects, delay claims, performance and payment bond claims, Miller Act cases, mechanic's liens, change orders, indemnity claims, and a host of other matters.

- Arbitration and Mediation

- Developers
- Equipment and Material Suppliers
- Financial Institutions
- General Contractors and Subcontractors
- Government Contractors
- Marine Construction Companies
- Owners

CWM represents owners, sureties, contractors, and equipment and material suppliers in all aspects of construction contracting and dispute resolution. Our Practice Group Chair is a former chair of the Construction & Public Contracts Law section of the Virginia Bar Association. We handle matters ranging from design defect claims to IDIQ contracts involving over \$300 million in federal projects.

In all our efforts, our primary goal is to add value to our clients. We help clients consider critical aspects of their contracts, such as liquidated damages, change order clauses, differing site conditions, pay-when-paid clauses, indemnification clauses, and others, on both public and private projects.
